PROFESSIONAL SUMMARY

Data Science graduate with strong proficiency in Python, SQL, Statistics, Data Analysis, and Machine Learning. Experienced in data preprocessing, exploratory data analysis (EDA), feature engineering, and predictive modeling using real-world datasets. Skilled in building data-driven solutions, extracting actionable insights, and supporting decision-making through data visualization and analytical reporting.

TECHNICAL SKILLS

Python (Pandas, Numpy, Scikit-learn)	SQL
Feature Engineering	Statistical Analysis
Exploratory Data Analysis (EDA)	Machine Learning
Matplotlib	Jupyter Notebook
Deep Learning (TensorFlow, PyTorch)	Calculus

PERSONAL PROJECTS

A Data-Driven Analysis on Football Players Under Different Managers

github.com/Muhammed-Shameel/football-player-analysis

Analyzed 2,500+ match-level records (2017–2025) across major football teams. Applied Factor Analysis to derive player performance metrics. Built ML models for manager–player compatibility (68.7% accuracy, 0.65 F1). Developed insights on tactical impact and player adaptability.

Tech: Python (Pandas, NumPy, Scikit-learn), SQL, Matplotlib, Seaborn, Flask

CSIRO Image2Biomass Prediction

github.com/Muhammed-Shameel/CSIRO-Biomass-Prediction-using-Machine-Learning

Built regression models using MSE, Huber, and LogCosh loss functions. Achieved $R^2 = 0.86$ (best model) and improved performance using ensemble methods. Developed weighted ensemble model for better prediction stability.

Tech: Python, TensorFlow, Keras, NumPy, Matplotlib

Planner AI

github.com/Muhammed-Shameel/AI-Planner

AI-powered task planning and scheduling system that automatically organizes daily tasks based on priority, deadlines, and user-defined constraints. The system applies intelligent scheduling logic to optimize time management and improve productivity. It features task creation, dynamic updates, and a structured dashboard to track daily plans and progress. Built using Python with a focus on automation, data handling, and user-centric design to reduce manual planning effort and enhance efficiency.

Tech: Python, SQL, Pandas, NumPy, Flask/Streamlit, HTML, CSS, JavaScript, Git & GitHub.

WORK EXPERIENCE

Mathematics Tutor

Interval

07/2023 - 03/2024

Kerala, India

EDUCATION & CREDENTIALS

Asia Pacific University of Innovation and Technology, Malaysia

09/2024 - 10/2025

MSc in Data Science and Business Analytics

GPA: 3.62

University of Calicut, India

06/2021 - 04/2024

BSc in Mathematics

Grade : B

CERTIFICATIONS & AWARDS

- Introduction to Programming (Python), Kaggle (2026), Kaggle (2026)
- Pandas, Kaggle (2026), Kaggle (2026)
- Machine Learning Explainability, Kaggle (2026), Kaggle (2026)
- SAS - Asia Pacific University of Technology and Innovation Joint Certificate in Data Science and Business Analytics, SAS (2026), SAS (2025)
- AWS Educate Machine Learning Foundations - Training Badge, AWS (2025), Amazon (2025)
